

Remarks

Sequence Listing

The Sequence Listing has been amended to comply with the requirements of 37 C.F.R. §§1.821 to 1.825. Specifically, the Sequence Listing has been amended to replace the term "Artificial" with "Artificial Sequence" in the numeric identifier <213> for each of the sequences in the Sequence Listing. Further, the computer readable form contains a single ASCII file. The Sequence Listing was created using PatentIn 3.3 and checked with Checker 4.3.1. No errors were found.

In compliance with 37 C.F.R. §1.825(a), Applicants submit that the information contained in the written and computer readable form of the substitute Sequence Listing is the same. Support for the amendments to the Sequence Listing can be found throughout the specification. No new matter has been introduced into the application.

Prompt consideration and entry of the amendments and response is respectfully requested. Should the Examiner believe that a discussion of this matter would be helpful, the Examiner is invited to telephone the undersigned at (312) 913-0001.

Respectfully submitted,

McDonnell Boehnen Hulbert & Berghoff
